Vietsoft.com.vn

*Reduce maintenance costs
Increase company profits*

Another way of management

1 | Vietsoft Introduction

In 1997, Department of Science and Technology of HCMC entrusts a research in developing a management software for the Garment Industry. This research aimed to help the Garment industry – one of the major export industry of Vietnam - to enhance its productivity.

In 2001, after successfully completed the research, Vietsoft Co. Ltd was established to further improve and commercialize the research. Since then, more than 60 garment enterprises have chosen this software to manage their production and business processes.

In 2004, Vietsoft introduces Computerized Maintenance Management Systems – Vietsoft Ecomaint which has been used by many companies to reduce downtime for machines, cut down maintenance cost and improve business efficiency.

Since 2008, Vietsoft has become A Valued Service Partner of SAP in implementing SAP Business One in Viet Nam.

Recently, Vietsoft launched PJQUICK, Project Management and Collaboration application, running on Cloud.

To this day, Vietsoft continues to grow and supplies management software to many industrial companies.

6 | Why choose Ecomaint ?

1 Top CMMS Solutions in Vietnam

Ecomaint is the first Maintenance Management Software in Vietnam, developed and launched in 2004 by the cooperation of Vietsoft and maintenance experts from HCM University of Technology. Ecomaint helps enterprises operate the maintenance system by the **World Class Maintenance**, completely satisfies requirements of World management systems such as **TPM. ISO 9000. ISO 55000 ...**

2 Implementation & Consulting Experience

With over **15 years** of development and successful implementation for more than **50 customers**, Ecomaint has been constantly evolved to always meet requirements of enterprises and keep its leading position. In addition, our consultants and maintenance experts will help enterprises have the best maintenance management solutions.

3 The Ability to Integrate

Ecomaint is also connected to barcode equipments, SCADA, PLC and can be integrated with other software systems such as accounting softwares or ERP systems. As an enterprise with many years of experience in the field of ERP solutions and a partner of SAP, Vietsoft will advise and help customers choose the best integrated solutions to make maintenance becomes part of the corporate governance system.

4 Available for many Industry Fields

Ecomaint have customers from many different fields: Engineering, Chemicals, Cosmetics, Pharmaceuticals, Hospitals, Car Parts, Food - Beverage, Packaging - Plastic, Feed, Storage Port ...

5 The Handling Ability

With **SQL server database**, Ecomaint can store and handle a large amount of data quickly.

With friendly and familiar **window form interface**, users will be supported for input and data retrieval with rapid speed.

That is a huge advantage to compare Ecomaint with other CMMS softwares which are designed using web-based solutions that restricts the **ability to handle multiple data** and require **higher hardware investment costs** when the database is too big.
